

Now Available
4340 BILLET UTV PROP SHAFT YOKES

RDL Billet prop shaft components are designed to fit into 1 1/4" x .120 wall tubing and by adding a few other Rockford Driveline components like the ATV500 U-Joints, 455-56 center support bearing & R10-30-92-72 DOM tubing you are able to build your own Polaris RZR 1000 prop shafts for the turbo or non-turbo as well as most Polaris assemblies.
